Rubber Dies & Moulds Expo

13-14 September 2017

Auto Cluster Exhibition Center, Chinchwad, Pune

Rubber Dies and Moulds Expo 2nd Edition in Pune

Key Sectors

- Rubber Product Manufacturers
- Plastic & Packaging Sector
- Defence Sector
- Automobile & Automotive Sector
- Engineering & Electronics Sector
- Cement Industry

Features of RDME in Pune

- 2nd edition RDME is the expo for Rubber product manufacturers in MSME sector to explore more business opportunities.
- RDME is a unique exhibition in India where different verticals of Rubber Industry will get an opportunity to showcase their products i.e. Industrial Designers, Product Developers, Mould Designers, Mould Manufacturers, Suppliers & end users particularly in MSME sector.
- As compared to the 1st edition of RDME held in Pune in April 2016, we are expecting 40% increase in exhibitors, 100% increase in visitors and participation of international exhibitors & visitors.
- This will further strengthen the growth of Dies & Moulds sector and will help in contributing to the economic development agenda.
- RDME 2017 will include technical conference & presentations by experts in India.
- The objective of RDME is aligned with the Prime Minister's vision of "Make in India".

Key Highlights of RDME 2016 (1st Edition)

- Successful expo in April 2016 in Pune with 42 Exhibitors & around 3000 visitors.
- Excellent technical conference & Paper Presentation by world renowned speakers.
- Participation from various sectors across all regions of India.

Benefits of Participation

Organised by All India Rubber Industries Association, the RDME is a great platform for rubber product manufacturers. The major objective of RDME is to bridge the gap between Mould Manufacturers, Mould Designers, Product Developers, Suppliers and end users. This will help the manufacturers to achieve manufacturing excellence with Dies & Moulds.

For visitors RDME is a one-stop shop for the engineering and allied industry professionals. It's an opportunity to understand the Die & Mould making capabilities available in the market and also meet the Die and Mould manufacturers in person.

The RDME organising committee is looking forward to involve all types of businesses and research institutes, product development companies, prototype and bulk manufacturers to showcase methods for quicker, more economical and more efficient product development at RDME, which plays an important role in meeting the demands of the rubber industry.

Exhibitors Profile

- Design & Engineering
- 3D Equipment & Technologies
- Mould Making & Tooling
- CAD / CAM / CAE / PDM Software
- Mould Coating & Polishing
- Automation & Quality Control Systems
- Simulation & Proto Typing
- Mould Manufacturing
- Dies & Moulds, Press Tools, Jigs, Fixtures & Gauges
- Metal Processing & Metal Working Equipment
- Mould Release Methods & Application
- Peripheral Equipment & Robotic Devices

Visitors Profile

- Engineers / Designers
- Owners & CEO's
- Electrical & Electronics Industries
- Railway, Defence, Ports, Marine & Aviation Industries
- Rubber Product Manufacturers
- Entrepreneurs / Academia
- End Users from : Automotive Industry

Conference & Technical Paper Presentation Topics

- Die Polishing & Die Designing
- Wear Resistant Coating & Maintenance of Moulds
- Use of Advanced Coatings for Corrosion Resistance
- Mould Release Methods & Applications
