**28***Country Profile***Country Note on Saudi Arabia**

Saudi Arabia constitutes about four-fifths of the Arabian Peninsula in Southwest Asia. Although Saudi Arabia is known to be the third-largest country in Asia, after China and India, its precise area is difficult to specify because several of its borders are incompletely demarcated.

Tech update

Different Types of Molding Technology

Molding technology is as old as the beginning of human civilization, when men learnt the technique of making metallic object by casting. Molding is the process of manufacturing by shaping liquid or viscous semi-solid or pliable raw material using a rigid frame called a mold or matrix.

84

Tech Update

A suggestion from a reader for compound mixing

In such case how do you adjust the Hardness & flow characters for further processing without a trial batch? At the most we can reduce or increase the Plasticizers pphr for low viscosity Rubber or increase the Filler p hr.
