The future of Rubber gets *BIGger*.

Vikram Makar – Chairman, IRE 2019
Oriental Rubber Industries Pvt. Ltd.
Chairman & Jt. MD

As the India Rubber Expo gears up for its 10th successful edition, we are elated to state that the Indian Rubber Industry is poised for the next big leap not just in terms of technology and innovation but also with respect to the rising opportunities in local as well as global markets. Call it a revolution in the making or the beginning of an epic journey, IRE 2019 is all set to take centre stage and drive the industry forces together towards one unified goal- Outperformance.

The move has gained further momentum with India stepping-up its status as the world's fastest growing economy and several pro-industry initiatives and policies supported by the Government of India. With rubber successfully making inroads into new industry segments and consolidating its position in the already established ones, the future looks undoubtedly promising and bright for traders, exporters, investors, stakeholders and the industry at large.

Keeping up with our tradition, IRE 2019 is slated to be the biggest and the most relevant exhibition for the Indian Rubber Industry in terms of global reach

as well as participation of industry influencers. This year too, we will focus more on increasing exhibitor participations by providing a credible platform for the finest minds in the industry and a visibly bigger global reach clubbed with industry relevant value additions.

Thanks to the sincere efforts of Mr. Vishnu Bhimrajka, our Chief Convener and his dynamic team who have left no stone unturned to make this iconic event a bigger success than its predecessor. IRE 2019 is now poised to leave its mark as the most influential event for the Indian Rubber Industry and an enabler of progress for all its stakeholders including rubber manufacturers, end OE customers, suppliers, technical experts, government, educational bodies and institutes. I invite and encourage all stakeholders of the rubber industry to make the most of this iconic platform and drive the change we all want to see tomorrow.

Let's Grow *Bigger*, Together!

India gears up for the **BIG** Rubber Revolution.

Vishnu Bhimrajka – Chief Convener, IRE 2019
Polmann India Ltd.
Director

With the Indian Economy showing a marked increase in GDP and encouraging growth prospects, the world is looking forward to India as the biggest hotbed of business opportunities. India is poised to double its growth and become a \$5 Trillion economy by 2024. The Indian Government is going all out to make the most of this phenomenon by encouraging FDIs, rapidly building business-friendly infrastructure and fuelling growth prospects across SMEs. With strategically planned initiatives like Stand Up India, Skill India and Make in India gaining prominence and global acceptance, the atmosphere is electric and the future seems to be more rewarding than ever before.

Since inception, India Rubber Expo has vested all its interests in taking the Indian Rubber Industry to the world. Rubber products today are playing an important role in industries like Real Estate, Automobiles, Defence, Wires and Cables, Railways, Metro, Bullet Train, Infrastructure, Aerospace and many more. The global synthetic rubber market is projected to reach 21.2 million metric tons* by 2024.

Being from the rubber fraternity, we understand

the industry inside out and continuously work towards its betterment by aligning ourselves with government bodies and policy makers, bringing industry greats on a common podium and widening the scope of rubber applications across industries locally and globally. India Rubber EXPO 2019 will definitely be an iconic event for the Rubber industry; as continuous efforts are on to make it big in terms of scale, reach and industry relevance. It will bring together the finest minds in the industry, policy makers, SMEs, Buyers, Sellers and Global Giants and pave the way for a mutually beneficial future. Conceived by AIRIA, INDIA RUBBER EXPO is now in its 10th successful edition and continues to be a landmark event for every stakeholder of the rubber industry. After successful editions in Delhi and Chennai in 2015 and 2017 respectively, IRE 2019 will now be hosted in Mumbai – the financial capital of India and the city of unlimited opportunities. Get ready to explore new business turfs, widen perspectives, access long-term growth and prosper like a pro through our strategically planned Conferences, Workshops and a Domestic Reverse Buyer-Seller Meet. Expect nothing small. IRE 2019 is here to make your big dreams come true.

THE GENESIS OF *BIG*

India Rubber Expo is conceived and organised by the All India Rubber Industries Association (AIRIA), a non-profit body dedicated to safeguarding and promoting the interests of the rubber industry through a host of industry initiatives. Established in 1945, AIRIA is one of the oldest premier industry associations in India and has over 1200+ countrywide members and some key industry associations as its association members. AIRIA consistently works towards its long term objective of making the Indian Rubber Industry globally competent by ensuring synergy across the entire value chain. Headquartered in Mumbai, the association has four regional offices at New Delhi, Kolkata, Chennai and Mumbai and a chapter office at Pune & Ahmedabad. The association also provides

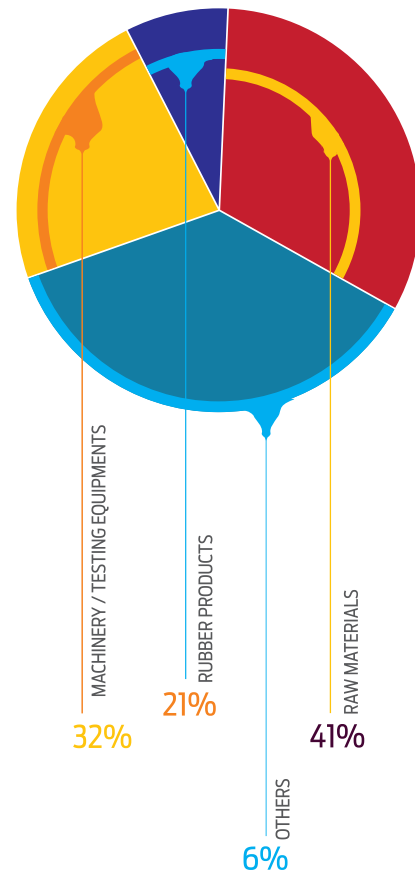

a credible platform for interaction between Indian Rubber Entrepreneurs (in India) and the rest of the world. AIRIA promotes industry interests and progress of its members by identifying partners for joint ventures, locating new consumers and suppliers and providing technical assistance and manpower training for member companies. Apart from IRE, AIRIA also hosts the National Rubber Conference exclusively for the stakeholders of the Indian Rubber Industry primarily to apprise them about global trends affecting them and focus on short-term as well as long-term goals. AIRIA is also organising IRE Road Shows across different locations in India and through delegations at major international shows to make the tenth edition of IRE a *bigger* success.

BIG AND HOW

IRE is by far the biggest and the most eagerly awaited event across Asia dedicated to the rubber industry. Appreciated and admired by industry icons and stakeholders alike, IRE lives-up to its expectations of being a credible platform for growth and promotes exchange of ideas and collaboration of like minds in a convincing manner. Being an opportunity multiplier to the core, IRE will house an international pavilion exclusively for participants from China. The event will also host an exclusive International Conference, Workshops and a Reverse Buyer-Seller Meet to maximise industry potential and deliver desired results. The 10th edition of this landmark event i.e. IRE 2019 will be spread over a massive area of 26,000 sq. mts. at NESCO Complex, Mumbai. This will undoubtedly offer a big advantage to exhibitors and all other stakeholders as it will be a one-of-its-kind event that will open-up a world of multitudinous opportunities.

Typical IRE Stalls
Category-wise Break-up

Typical IRE EXHIBITORS

 Domestic  International

EXPERIENCE THE *BIG*vantage!

IRE 2019 will bring the best minds in the rubber industry for you to benefit the most. But that's not the only reason you should be there. Experience a host of unparalleled advantages, all lined-up exclusively for you.

- Meet, exchange ideas and network with prospective buyers and sellers across industries and countries by booking your company's stall at our extra large exhibition venue spread across 26,000 sq.mts. The exhibition will accommodate an international rubber pavilion as well as marked zones for national level players to showcase their respective core competencies.
- Explore global business perspectives and possibilities at the International Rubber Conference to be graced by the who's who of the industry from India and abroad.
- At IRE 2019, you have the opportunity to participate and explore RBSM and Domestic RBSM (Reverse Buyer-Seller Meet), an exclusive platform for MSMEs from the rubber fraternity to engage with overseas buyers as well as domestic OEMs, Government Entities, etc. on one-to-one basis.
- Update your skill set and knowledge on new-age technologies and other industry innovations at the IRE 2019 Workshop organised specially for rubber industry enthusiasts.
- Interact with a wide cross-section of contributors to the rubber industry from India and across the globe.
- Unveil new offerings, programs, technology and product lines on the biggest industry platform.
- Thrive on the opportunity to strengthen existing business ties and gain customer loyalty.
- Enjoy one-to-one interactions with prospects to accelerate the buying process.
- Seize the biggest opportunity to consolidate your position and up your industry profile ratings.
- Expand your business portfolio locally and globally.
- Network with policy makers, prospective clients and multiple industry talents under one roof.

MUMBAI – THE MAXIMUM CITY WITH MAXIMUM OPPORTUNITIES.

Here's a city that's always on its toes when it comes to progress. Welcome to Mumbai the financial capital of India and undoubtedly the city of bigger opportunities. Mumbai is the capital of Maharashtra, the richest state of India with a GDP of INR 1659776 crores (\$0.25 trillion) and a 14.5 % contributor of India's GDP. Being the second largest state in India in terms of population, the state accounts for 9.3 % of the total population of India and is highly urbanised with 45.2 % people residing in urban areas. Maharashtra is also one of the most industrialised states of the country with a sizable presence across industries like pharmaceuticals, petrochemicals, heavy chemicals, electronics, automobiles, engineering, food processing and plastics.

AVERAGE SHARE OF THE MAJOR SECTORS: MAHARASHTRA Vs. INDIA

The state has 69 Special Economic Zones (SEZs) notified as duty-free enclaves. These SEZs have a relaxed and business-friendly policy regime and are aimed at promoting rapid industrial development and employment generation. Maharashtra also stands tall with respect to availability of skilled manpower, world quality infrastructure and rapid industrial development through MIDC's prompt support.

The Annual Survey of Industries (ASI) 2014-15 provisional results reveal that Maharashtra is at the top position in terms of Gross Value Added and wages to workers with shares of 20.5 % and 15.7 % respectively at the all-India level.

DIVISION-WISE DISTRIBUTION OF MSMEs AND EMPLOYMENT (upto Sept. 2015)

DIVISION	Number of MSMEs	% share of MSMEs	Employment (lakhs)	% share in employment
Mumbai	24786	10.2	4.05	13.9
Konkan Division (excl. Mumbai)	39269	16.1	6.32	21.7
Nashik Division	27458	11.3	3.15	10.8
Pune Division	92233	37.8	10.05	34.4
Aurangabad Division	18751	7.7	1.93	6.6
Amravati Division	14510	5.9	1.14	3.9
Nagpur Division	26714	11	2.55	8.7
Maharashtra	243721	100	29.19	100

Source: Economic Survey of Maharashtra, 2016-17

- A significant number of these MSMEs have filed Entrepreneurs Memorandum (EM) as well.
- Maharashtra also has 454 mega projects, with an investment of INR 354686.34 crores and providing employment to 3.88 lakhs. Of these, 137 projects with an investment of INR 53,018 crore and proposed employment of 0.84 lakh have been issued eligibility certificates.

The city of Mumbai comes with a history that every Indian can be proud of. Dubbed as the financial capital of India, the city houses the headquarters of almost all major corporate and financial of the country. Mumbai never sleeps. The city is always on the move and lives-up to the expectations of being the most progressive city in India day-in and day-out. The city of unlimited opportunities also accommodates the National Stock Exchange and the world famous Bombay Stock Exchange.

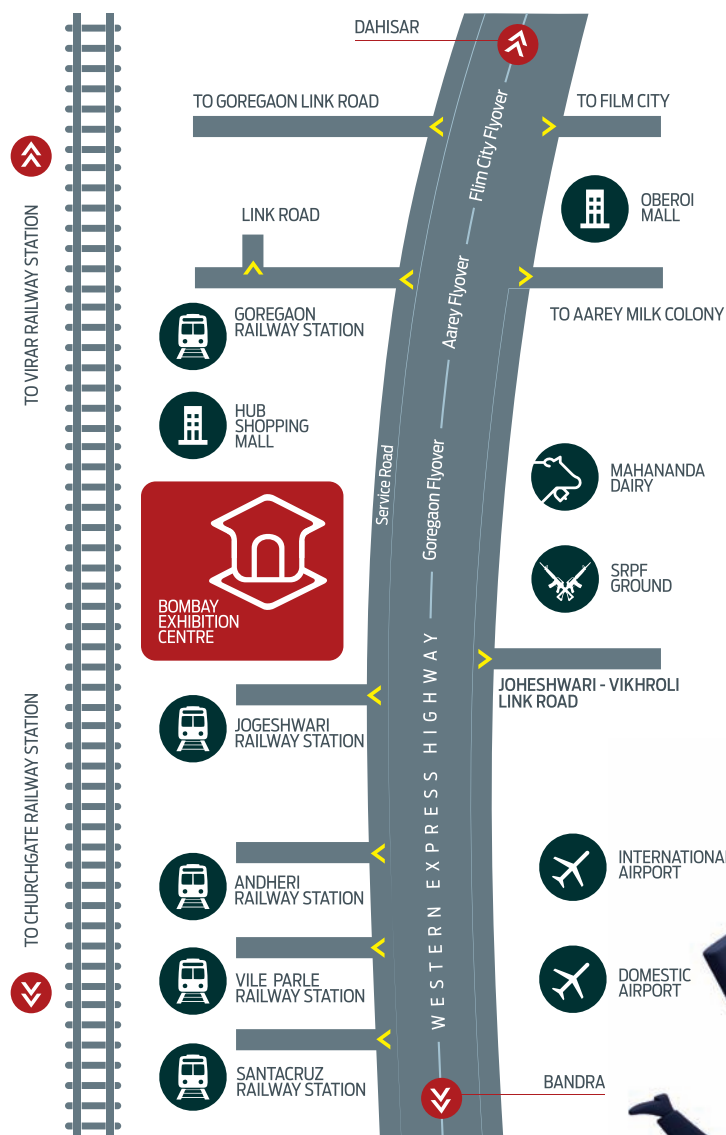

Hosting the 10th edition of IRE in Mumbai is indeed the biggest tribute one can pay to the Indian Rubber Industry. The all-encompassing spirit of Mumbai clubbed with an equally active government that's focussed on industrial growth clearly makes the city the best place to host IRE 2019. Welcome to the maximum city. Maximise your business potential with IRE 2019.
