

Two plants affected: Apollo Tyres

Apollo Tyres said production at its two plants in Kerala has been disrupted from the floods in the state. Operations of the company's plants located at Perambra and Kalamassery have been disrupted due to the floods, Apollo Tyres said in a BSE filing on Monday.

The production loss from the natural calamity is about 1,500 mt till Monday, but "consequential loss of profit is not significant," it said.

The company produces commercial vehicle tyres and off-highway tyres in the two plants.
