15 President's Message

17 Editor's Note

18 Know your AIRIA Office

20 AIRIA News

A round-up of the various activities conducted by the All India Rubber Industries Association.

27 National News

34 International News

30 Industry Report

### Kaolin Market to Grow Substantially

The increasing demand for kaolin from various end-use industries, such as paper, ceramics, fiberglass, paints and coatings, rubber, and plastics, is expected to drive the growth of the kaolin market during the forecast period, reports Markets and Markets.

44 Industry Report

### All Taped Up!

Non-woven tape market to touch USD 4.55 billion by 2023.

46 Feature

### Formulating the Right Mix

HEXPOL offers a variety of materials for the transportation and tyre industries.

48 Industry Report

### More Power to Fire-Resistant Cables

The growing global markets of building and construction and the increasing demand for automobiles in the Asia Pacific region will push the fire-resistant cable market to reach USD 2.06 billion by 2023.

52 Industry Report

### Good Times for Adhesives and Sealants

Adhesives and sealants are versatile products that find application in varied industrial sectors. Opportunities for these products continue to expand, as manufacturers seek new and high-performance materials to bond dissimilar materials, reports Markets and Markets.

## 60 Branding

### Defining a Company's Core Values

Branding and marketing consultant Nandita Khaire highlights the importance of having the right vision and mission statements in place for a company to move forward.

## 66 Across Boundaries

### Doing Business with Other Countries

Understanding cultural dimensions gives us an idea how differences in cultures can affect business practices and interactions. Dr. Swati Karve, Founder and CEO, Swasti Institute for Learning and Development (P) Ltd., throws more light on this subject.

## 74 Innovation

### Tyre Industry: Facing a Digital Transformation

A report published in the European Rubber Journal states that digital manufacturing has opened doors for tyre makers.

## 78 Company Profile

### Taking the Lead

ACE Products and Consulting, a USD-based testing laboratory brings innovation in technology and services to the rubber and silicone markets. Its expanded services also include a commitment to customers through educational programs. Huned Contractor gets the details.

## 84 Cover Story

### Steel Wire Calendaring Process

Rubber consultant Dr. Samir Majumdar explains the calendaring process using rollers to form or smooth a sheet of material such as rubber as well as its various applications.

## 97 New Products

## 107 Feature

### Tapping and Processing of Natural Rubber: An Overview

Jergin J I throws light on natural rubber, its extraction, processing and finishing.

## 101 Case Study

### Sustainability: Praj Industries Shows the Way

More and more manufacturing companies need to follow the example of Pune-based Praj Industries which has incorporated a slew of energy-saving and non-polluting measures in its new building, suggests Atul Mulay, President-Biofuel Business, Praj Industries Limited.

## 102 Technology

### Best Foot Forward

3D printed polyurethane footwear makes technological strides, writes Sarah Houlton, Associate Editor, Urethanes Technology International.

## 110 Research

### Understanding Forward Osmosis

Forward osmosis, as Dr. Harshvardhan Modak explains in this article, is the latest technology for compliance with environmental standards in effluent treatment and recovery of reuse quality water.

## 115 Events and Exhibitions

An update on various trade exhibitions related to the rubber industry.
