Cover Story

Customs, Foreign Trade Policy and Trade Remedies- Recent developments

The Indian Government has formulated numerous changes in Customs and Trade law with respect to both imports and exports. Some of the changes have already been implemented and some are in the process of being introduced.

30

Ground Report

Opportunity in Adversity

The Auto Industry was in a slow down phase but exports were doing well and there was all expectations of achieving our targets set in March 2019. Little did one know what was to come!

38 Trade Speak

Cautiously reaching the pre-Covid sales

Author guess by now most of us have gotten used to this New Normal of social distancing, wearing masks, avoiding social gatherings etc. Before I talk about the industry trend, I would like to point out a new trend in our lives – avoid going to hospitals if you want to be safe!!! What an irony....

41 Innovation & Tech

An Approach to Design Extrusion Dies for Complex Shaped Rubber Profiles Using Finite Element Analysis

Extrusion is one of the most useful processes for making long rubber product profiles. The profile deforms while extruding due to die swell based on the geometry of the die, thermal and rheological properties of the material, and predominantly on the thermal and rheological boundary conditions.

Apprenticeship: The best way forward

The COVID-19 pandemic followed by nationwide lockdown has destabilized the economy all around the world, and has also impacted the jobs of the citizens. Due to COVID-19, many organisations are downsizing the workforce to reduce the financial burdens as no company is making any profit at this moment.
